

The screenshot displays the Joomla! administrator dashboard with various modules and their positions. The interface is organized into several sections:

- Header:** Includes the Joomla! logo, a "Home Dashboard" button, and status notifications like "Post Installation Messages".
- Left Sidebar:** A "Toggle Menu" section with navigation options: "トップに戻る", "Content", "メニュー", "コンポーネント", "Users", "システム", and "ヘルプ".
- Main Content Area:**
 - Site:** A grid of modules for "ユーザ", "記事", "カテゴリ", "メディア", "モジュール", and "Plugins".
 - System:** Modules for "Global Checkin" and "Cache".
 - Notifications:** Alerts for "Overrides are up to date", "Joomlaは最新です", "アップデートが利用可能です 14", and "Download Keys entered correctly".
 - 3rd Party:** A module for "JCEファイルブラウザ".
 - Latest Actions:** A table listing recent user actions.
 - Privacy Management:** A section titled "プライバシー管理" with a message: "No Information Requests have been submitted yet.".
 - Logged-in Users:** A table showing active users.
 - Popular Articles:** A table listing recent articles with view counts.
 - Recently Added Articles:** A table listing newly added articles.
 - Footer:** A "Add module to the dashboard" button.

Each module in the dashboard includes a "Position" and "Style" attribute, such as "Position: customtop, Style: none outline" for the header or "Position: top, Style: html5 outline" for the main content area.
